

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 7800 or by email at phil@tritechusa.com.

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accommodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers – *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Crime Scene Investigations

The initial response to the crime scene and its investigation will often dictate whether or not the crime being investigated will be solved. The Crime Scene Investigation course on the response to and processing of crime scenes will prepare the student to improve his or her skills in documenting scenes, identifying, processing, and collecting evidence from the scenes, and will begin to prepare them to testify as to their findings. The course is intended for basic to intermediate-level investigators and technicians who have limited on-the-job experience. New personnel, those who do not investigate crime scenes on a full-time basis, and those currently working in the field of crime scene investigations for less than two years will benefit most from this course.

Topics will be presented in a lecture format that will be immediately followed by hands-on exercises that reinforce the learning of material presented in the lectures.

Daily Topics:

Day 1: (a) Photography with a concentration on the relationship between ISO, aperture, and shutter speed & (b) Documenting the crime, including drawing a detailed diagram of a mock crime scene

Day 2: Processing evidence and proper packaging methods

Day 3: (a) Processing, documentation, and collection of blood evidence at crime scenes & (b) Low light photography (held in the evening)

Day 4: Documentation of footwear evidence

Day 5: (a) Introduction to testifying in court & (b) Demonstration of how the proper use of Photoshop can enhance evidence collected from the scene

COURSE INSTRUCTOR

TOM HILL

Tom Hill was employed with the City of Fort Lauderdale Police Department from 1973 to 2004, working in the Patrol Division, Detective Bureau and then became one of the first officers to be assigned to the Crime Scene Investigation Unit in the 1980s. His duties consisted of the investigation of any and all deaths, aggravated batteries, sexual battery, child abuse, and traffic homicide.

From 2005 to 2016 he worked with the Broward County Sheriff's Office in the Crime Scene Investigation Unit in a civilian capacity. There he was responsible for all digital imaging evidence, training new Crime Scene Detectives in Bloodstain Pattern Analysis, Crime Scene Photography and the chemical processing of blood scenes and evidence. He was also a Footwear Pattern Analyst and did comparisons for agencies throughout South Florida.

Tom was an Adjunct Professor with the Broward Community College Criminal Justice Institute from 1996 to 2000, teaching Forensic Photography. An Army veteran, Hill has a degree in Criminal Justice from St. Thomas University (Biscayne College 1981). He is a member of the Fraternal Order of Police Lodge 31, International Association of Bloodstain Pattern Analysis, IAI – Life Member and FDIAl, and he has published numerous articles on crime scene documentation. Hill has taught more than 50 classes to other investigators throughout South Florida and at conferences nationwide.
