

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 7800 or by email at phil@tritechusa.com.

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accommodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

INTRODUCTION TO FINGERPRINT SCIENCE & TENPRINTS

Instructor: J. P. Rodriguez

May 6 - 10, 2019

Tuition: \$579

Course Location:

**Metropolitan Nashville Police Department
400 Myatt Drive | Madison, TN 37115**

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers – *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Introduction to Fingerprint Science & Tenprints

The Introduction to Fingerprint Science and Tenprints course serves as the primary level of training for those individuals working or seeking employment in the field of fingerprint identification.

This forty-hour workshop is designed to introduce fingerprints to new tenprint examiners, new AFIS operators, new latent print examiners, and crime scene or medical examiner personnel by introducing them to the terminology and concepts of identifying fingerprints. It is the training required by most agencies for the hiring of new employees to work in the field of fingerprint identification and serves as the basis for more advanced training in the field.

This workshop is designed to introduce the student to the comparison of inked fingerprints. It will provide the student with the basic knowledge, skills, and abilities necessary to recognize and compare known areas of friction ridge skin. It will also introduce the student to basic comparison concepts for effective tenprint identifications as well as the requirements for taking legible fingerprint standards. The students will take part in practical exercises that are designed to reinforce the topics covered in the lecture each day of the class and progressively increase in difficulty.

All materials required to complete this course will be provided by **TRITECHFORENSICS** Training Division. This includes all handout materials, fingerprint magnifiers, and ridge counters.

COURSE INSTRUCTOR

J. P. RODRIGUEZ

J.P. Rodriguez is currently employed for the Broward County Sheriff's Office Crime Lab as a Latent Print Examiner. He holds a Bachelors of Science degree from Florida State University.

J.P. began his career as a Tenprint Examiner for the Miami-Dade Police Department in 2008. He was later hired by the Broward County Sheriff's Office as a Latent Examiner in 2012. J.P. has been invited on multiple occasions to lecture at the Miami-Dade Public Safety Training Institute and at conferences and meetings of the Florida Division of the International Association for Identification (FDIAI.) At those venues he has instructed the Basic Fingerprint Classification and Identification, the Basic Latent Print, and Advanced Latent Print and Comparison Workshops.

In 2013, J.P. was elected as the region 5 director of the FDIAI where he held that position through 2015. In 2016, he was elected as the Third Vice President of the FDIAI. In 2017 and 2018, J.P. was elected as the Second Vice President and the First Vice President of the FDIAI, respectively.
