

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 1025 or by email at phil@tritechusa.com.

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accommodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers – *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Forensic Traffic Crash Scene Photography

This course has been designed to instruct the student in the proper photographic documentation of accident scenes up to and including traffic homicide scenes. Emphasis is placed on the capture of images that are suitable for in-court presentation to a trier of fact such as a judge or jury.

Day 1: 0800-1700

- Basic Photography Review (ISO, Aperture, Shutter speed).
- Camera functions – with practical assignments.
- Flash photography – using various lighting methods and techniques – with practical assignments.

Day 2: 1400 – 2200

- Macro photography – with practical assignments (VIN and other identifying numbers, headlamp, speedometer, etc)
- Photographing vehicle conditions and property damage
- Photographing people:
 - o Identification
 - o body injuries (seat belt bruises, and other injuries)
- Using the polarizing filter for reduction of glare and visualization of skid marks
- Low light photography – with practical assignments

Day 3: 0100 – 1700

- Mock crash scene(s):
 - o of physical evidence from the roadway
 - o of physical evidence from the vehicles
 - o of skid markings
 - o of driver and witness POV
- Vehicle documentation for crush analysis exercises
- UAV aerial lecture with possible demonstration depending on FAA approval.

Student should bring:

- Digital SLR camera,
- wide to standard zoom lens
- macro lens
- external flash(es)
- powerful flashlight
- remote or off-camera sync cord (longer cable if possible)
- memory cards (at least two)
- sturdy tripod & monopod (if available)
- level (or angle finder)
- laptop
- memory card reader
- umbrella (golf type is best)
- extra batteries and charger for all equipment (camera, flash and flashlight)
- personal comfort items for outdoor activities (sunscreen, insect repellent, etc.)

COURSE INSTRUCTOR

KYLE KING, CFPH, SCSA

Detective Lieutenant Kyle King has been a sworn Law Enforcement member of the Indian River County Sheriff's Office since 1989. Most of his law enforcement career has been dedicated to investigative assignments, including crime scene investigations, child exploitation, homicide, and fourteen years as the crime scene unit supervisor. He currently serves in the Law Enforcement Services Division as commander of Criminal Investigations.

Kyle has a B.A. in Management from Warner Southern College and has presented training in various aspects of forensic investigations. He is certified by the International Association for Identification as a Certified Senior Crime Scene Analyst and as a Certified Forensic Photographer.
