

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 1025 or by email at phil@tritechusa.com.

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accommodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

INTRODUCTION TO FINGERPRINT SCIENCE & TENPRINTS

Instructor W. Morgan Hays, CLPE
July 26 - 30, 2021

Tuition: \$579

Course Location:

Valencia College School of Public Safety - Room 140
8600 Valencia College Lane | Orlando, FL 32825

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers – *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Introduction to Fingerprint Science & Tenprints

The Introduction to Fingerprint Science and Tenprints course serves as the primary level of training for those individuals working or seeking employment in the field of fingerprint identification.

This forty-hour workshop is designed to introduce fingerprints to new tenprint examiners, new AFIS operators, new latent print examiners, and crime scene or medical examiner personnel by introducing them to the terminology and concepts of identifying fingerprints. It is the training required by most agencies for the hiring of new employees to work in the field of fingerprint identification and serves as the basis for more advanced training in the field.

This workshop is designed to introduce the student to the comparison of inked fingerprints. It will provide the student with the basic knowledge, skills, and abilities necessary to recognize and compare known areas of friction ridge skin. It will also introduce the student to basic comparison concepts for effective tenprint identifications as well as the requirements for taking legible fingerprint standards. The students will take part in practical exercises that are designed to reinforce the topics covered in the lecture each day of the class and progressively increase in difficulty.

All materials required to complete this course will be provided by TRITECH**FORENSICS** Training Division. This includes all handout materials, fingerprint magnifiers, and ridge counters.

COURSE INSTRUCTOR: W. MORGAN HAYS

Morgan Hays is supervisor of the Florida Department of Law Enforcement (FDLE) Latent Print section at the Jacksonville Regional Operations Center. He began his forensics career with FDLE in August of 2002 as a crime lab technician in the DNA Database section. He was promoted to forensic technologist in the Chemistry/Toxicology section in August 2003 and then promoted to crime laboratory analyst in the Latent Print section in August of 2004. In August of 2009, he became supervisor of Latent Print and Impression Evidence section. In 2009, he was awarded the Missing Children's Day Law Enforcement Task Force/Team of the Year by the State of Florida.

Morgan is a certified latent print examiner by the International Association for Identification (IAI). He is an active member of both the IAI and the Florida Division of the International Association for Identification (FDIAI). He serves as chairman of the Latent Print Committee for FDIAI, is a former member of the Anthropology/Entomology Committee, and has worked his way through the ranks from Region 2 director to President of the association. In addition to filling positions of leadership, he has taught numerous colloquia and given lectures at FDIAI conferences, including "Biological Aspects of Friction Ridge Skin" and "Conflict Resolution and Verification." Morgan is also an ASCLD/LAB - International Certified Assessor for the American Society of Crime Laboratory Directors/Laboratory Accreditation Board. He has participated as a technical assessor of latent prints for ISO 17025 laboratory accreditation assessments from the municipal to the federal level. Morgan earned bachelor's and master's degrees in Anthropology from Florida State University.
