

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 1025 or by email at phil@tritechusa.com.

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accommodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers - *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Basic Latent Print Comparison

This forty-hour workshop is designed to help get the training process started for new examiners by introducing them to the terminology and concepts necessary to become a latent print examiner.

This Basic Latent Print Comparison workshop is designed to introduce the student to the science of latent print examination. It will provide the student with the basic knowledge, skills, and abilities to conduct comparisons as a latent print examiner. By knowing the history of latent print examination, the biology of the friction ridge skin, levels of friction ridge skin detail, and proper ACE-V methodology it will help the student become an expert in the latent print discipline.

Goals:

This forty-hour workshop is designed to set the foundation for novice examiners who may not have had latent print training and are new to the science of latent print examination. Upon completion of this workshop, the student should gain knowledge of the history of latent print examination, an understanding of the philosophy of permanence, and uniqueness of the friction ridge skin, levels of friction ridge skin detail, proper ACE-V methodology techniques and understand requirements for admissibility standards for courtroom testimony. The practical exercises are designed to reinforce the topics covered in the lecture each day.

COURSE INSTRUCTOR

J.P. RODRIGUEZ, CTPE

J.P. Rodriguez is currently employed for the Broward County Sheriff's Office Crime Lab as a Latent Print Examiner. He holds a Bachelors of Science degree from Florida State University.

J.P. began his career as a Tenprint Examiner for the Miami-Dade Police Department in 2008. He was later hired by the Broward County Sheriff's Office as a Latent Examiner in 2012. J.P. has been invited on multiple occasions to lecture at the Miami-Dade Public Safety Training Institute and at conferences and meetings of the Florida Division of the International Association for Identification (FDIAI.) At those venues he has instructed the Basic Fingerprint Classification and Identification, the Basic Latent Print, and Advanced Latent Print and Comparison Workshops.

In 2013, J.P. was elected as the region 5 director of the FDIAI where he held that position through 2015. In 2016, he was elected as the Third Vice President of the FDIAI. In 2017 and 2018, J.P. was elected as the Second Vice President and the First Vice President of the FDIAI, respectively.
